even physicians
need a lifeline.

Certified Coding Series

(HLTH5400)

***552 Hrs (10 months) | Cost: \$7,865**

Physicians rely heavily on medical coders in all types of healthcare facilities (hospitals, clinics, physicians offices). Besides assigning procedure and diagnosis codes for insurance billing, medical coders ensure compliance with patient confidentiality laws, and ensure smooth operation of the revenue cycle.

Our Coding Series is based on the model curriculum of the **American Health Information Management Association (AHIMA)**.

Our **PCAP (Professional Certificate Approval Program)** designation acknowledges that we meet the minimum national standards for entry-level coding professionals.

Get certified today and play a vital role in an industry full of opportunity.

**36.8 semester hour equivalent*

CAREER COACH SAYS
