

# Forklift New Operator and Certification

Course number: TRAD8350

Contact hours: 14 (2 days), 0.93 semester hour equivalent

Cost: \$195

## **Safety first.**

Skilled forklift operators are responsible for transporting and organizing inventory items in a safe manner.

With classroom and hands-on training, based on OSHA safety regulations, we'll teach you the fundamental skills needed to operate a forklift (class I, IV, and V) safely and efficiently, including: inspection, safe operations, and hauling capabilities and techniques.

Our two-day course prepares you for employment in warehouses, retail stores, manufacturing, food industry, airports and more.
